Make a Pennon

A pennon is a personal flag - you can add anything you like to make it personal to you - it could be a picture of you, your family, your pet, your favourite food, your hobby....

1. Print a template and draw your design - remember it can be anything you like! If you've not got a printer you can draw the shape by hand—copy the ones on our sheet.
2. Fold your pennon over one of the sticks along the dotted line.
3. Sellotape the paper in to place.
4. Cut a piece of wool and tie each end to one end of the stick—this will make a loop so you can hang your pennon up or wear it round your neck.
